Continuation of Substance of Interview including description of the general nature of what was discussed: The Examiner called Mr. Werner to explain his interpretation of Leas et al and to suggest that including limitations relating to the evacuation pathway with sealing means and circumferential groove with sealing ring would to make claim 12 allowable. Mr. Werner proposed the changes of the accompanying Examiner's Amendment. Claims 12-21, 23 and 24 were indicated by the Examiner to be allowable. Claim 22 is to be cancelled because its limitations, are, with the Examiner's Amendment, incorporated into claim 12.
